

Risk Disclosure — Soul In PsyAbstract LLC

Version: 1.0 · **Date:** 2026-06-27

Entity: Soul In PsyAbstract LLC, Delaware · EIN 30-1491964

Important Notice

This document discloses material risks associated with using SIPA OS products and the SIPA Token. **This is not investment advice.** SIPA Token is a utility token and does not represent equity or a guarantee of returns.

1. Business Risks

- **Early-stage company:** Soul In PsyAbstract LLC is an early-stage startup. There is no guarantee of revenue, growth, or continued operation.
 - **Key person risk:** The company is currently founder-led. Departure or incapacity of the founder could materially affect operations.
 - **Limited operating history:** The company was formed in 2026 with limited financial track record.
 - **Competition:** The AI productivity and neurodivergent wellness markets are competitive and rapidly evolving.
-

2. Token Risks

- **Price volatility:** SIPA Token price may fluctuate significantly. You may lose the full value of your tokens.
- **Liquidity risk:** Token liquidity on DEX may be insufficient to execute large trades without significant price impact.

- **Lock-up periods:** Founder tokens are locked until September 2026; premature unlock could affect market price.
 - **Smart contract risk:** Despite best efforts, smart contract bugs or exploits could result in loss of tokens.
 - **No guaranteed utility:** Token utility features depend on continued development and user adoption.
-

3. Regulatory Risks

- **Uncertain classification:** Regulatory classification of utility tokens varies by jurisdiction. SIPA Token may be classified as a security in some jurisdictions.
 - **Compliance obligations:** Token holders are responsible for understanding and complying with their local laws, including tax obligations.
 - **Restricted jurisdictions:** SIPA does not serve users in OFAC-sanctioned countries. Users must verify their own eligibility.
 - **Regulatory changes:** New laws or regulations may restrict token use, trading, or the services we offer.
-

4. Technical Risks

- **Infrastructure dependency:** Our services rely on third-party providers (Cloudflare, Auth0, Nebius AI, Base network). Outages at any provider could affect service availability.
 - **AI model availability:** AI capabilities depend on third-party models that may change, be deprecated, or become unavailable.
 - **Blockchain finality:** Transactions on Base mainnet are irreversible. Errors in transaction execution cannot be undone.
 - **Security vulnerabilities:** No system is perfectly secure. Despite our forensic audit protocols, security incidents may occur.
-

5. Mental Health / AI Risks

- **Not clinical care:** SIPA AI features are not medical devices or licensed therapeutic services.
- **AI limitations:** AI coaching responses may be incorrect, inappropriate, or harmful in edge cases.

- **Crisis situations:** AI safety systems (Crisis Rail) are technical safeguards only — they do not replace professional crisis intervention.
 - **Vulnerable users:** Neurodivergent users may be more susceptible to AI-induced dependency or harmful interactions. Use with appropriate professional support.
-

6. Disclaimer

BY USING SIPA SERVICES OR HOLDING SIPA TOKEN, YOU ACKNOWLEDGE THESE RISKS AND AGREE THAT SOUL IN PSYABSTRACT LLC IS NOT LIABLE FOR LOSSES ARISING FROM THESE RISK FACTORS.
